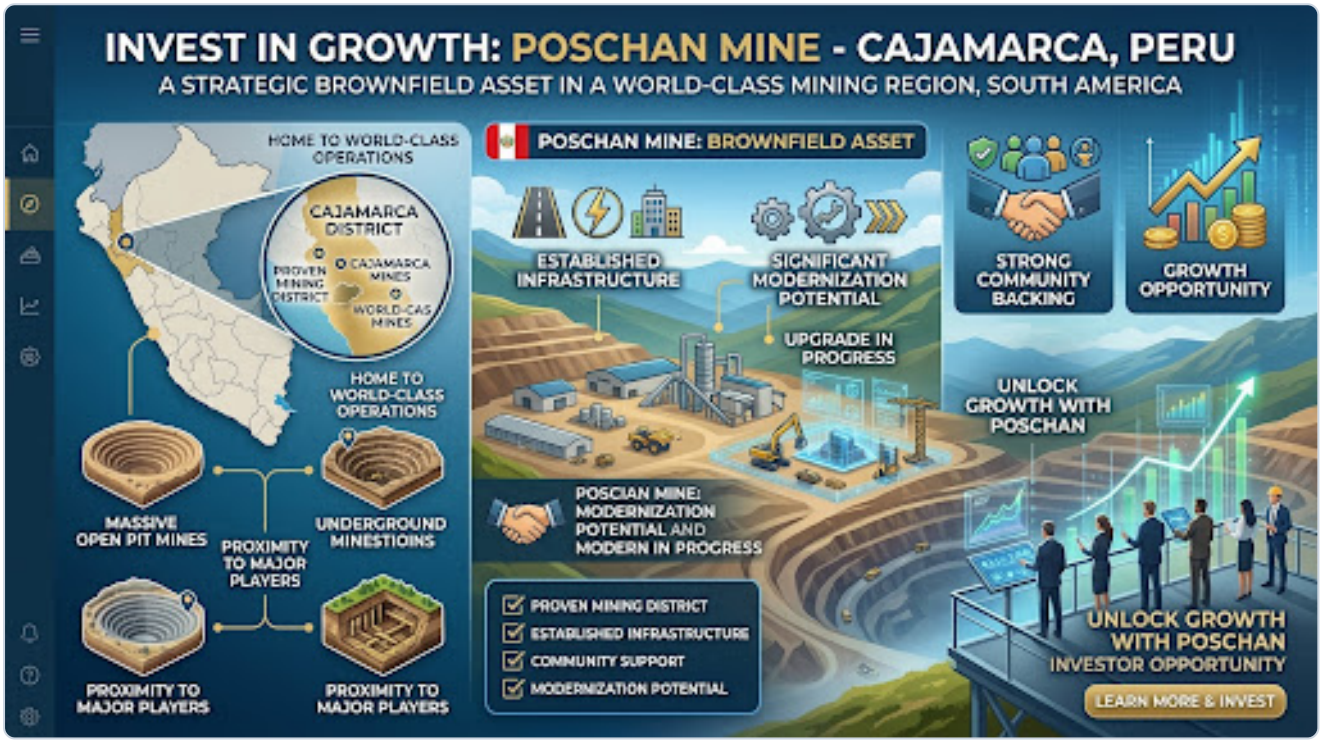
POSCHAN MINE

Cajamarca Region — Strategic Brownfield Asset in a World-Class Mining District

JURISDICTION	PROJECT STAGE	LOGISTICS ROUTES	SOCIAL LICENSE
Cajamarca Region	Brownfield / Production	Pacasmayo & Salaverry	Strong Community Backing



STRATEGIC LOCATION & MINING CONTEXT

Strategically located in the prestigious Cajamarca Region, one of South America's most prolific mining jurisdictions with outstanding geoeconomic potential and home to world-class (Tier 1) mining operations such as Yanacocha and La Granja, this solid brownfield project benefits from a history of exploration and mining activities supported by comprehensive technical studies and institutional backing.

INFRASTRUCTURE & OPERATIONAL CONTINUITY

The asset enjoys excellent road connectivity linked to both coastal and northern highland transportation corridors, providing seamless access to Cajamarca, Chilete, and maritime export terminals in Pacasmayo and Salaverry. The project also benefits from available utilities, established operational infrastructure, and a strong social license with surrounding communities, ensuring operational continuity and social stability.

> **Modernization & Growth Opportunity:** With exceptional growth potential through technological modernization and optimization of active production areas, the project represents a unique strategic investment opportunity for partners seeking immediate exposure to Peru's mining sector.
